

### **INTERVIEW SUMMARY**

A telephone interview was held on September 23, 2009 between the above-referenced Examiner and the below-listed Attorney. During the Interview, agreement was reached that the claims as amended would overcome the §101 rejections and could be entered without requiring a new search. The Examiner also agreed that the claims supported by U.S. Patent No. 7,124,435, which is a parent of the current application, would predate U.S. Patent No. 7,386,878 to Fernando et al. Accordingly, the Examiner requested that the Applicant show examples of support for the current claims in the parent, which is further detailed below. Accordingly, it is believed that the Application is in condition for allowance. The Applicant thanks the Examiner for his time in discussing the Application and should any other issues or questions remain the Examiner is invited to telephone the below-listed Attorney.
